REVISION OF THE CRIMINAL LAWS-ECONO-MY WHICH MEANS SOMETHING .- The special joint Committee on the Revision of the Criminal Laws, after a most thorough examination of the criminal statutes, have resolved to make many changes in the present luxurious system. They have determined to abolish, as far as practicable, one-year terms of confinement in the penitentiary. Small cases of petty larceny and minor offences of like character stripes have been substituted for confinement in has determined to close out his entire stock of DRY GOODS. CLOTHING. the court or justice trying the case shall ascertain the punishment where the same is not fixed by law; provided, that not more than 39 stripes shall be inflicted on one day, nor more than 78 for one offence. No fine shall be assessed by a court at less than five dollars, or by a justice at less than two dollars and a half. Bail shall be granted in all cases by the examining justice except where the offence is punishable by death, and in that case where, after an examination, it appears that only a light suspicion of guilt

attaches to the accused. The County Court, except where othervise provided, shall have exclusive jurisdiction of all offences except where punishable y death, and in that case the accused may ect to be tried in the Circuit Court.

All executions shall be within the jail yard, and in cases where the wall is not nigh enough the execution shall be in the jail in the presence of the attorney for the Commonwealth and twelve respond zens, including a physician; and there may be allowed such ministers and relatives of the convict to be executed as he may desire. Any sheriff or sergeant conveying prisoners to the penitentiary shall be allowed only one guard where there are two or more convicts, and in all other cases no

guard shall be allowed. Any person confined in fail for failure to pay fine and costs may hire themselves out for a time-not exceeding six months-suf- and the heirs of each of them having ficient to pay such fine and costs, the contract to be with the assent of the prisoner, attorney for the Commonwealth, and judge of the court having jurisdiction.

The jail-fees have been materially re-STRIPED SILKS (slightly damaged), 65c. worth | duced in the cities, 40 cents being now the allowance in all cases. The committee propose a scale of rates-40 cents for any number under 5, 30 cents under 10, and 25 cents for all exceeding 10. This will make a reduction of at least \$10,000 per annum in the criminal expenses, it is claimed.

prisoners confined in jail shall be obtained from the Storekeeper of the Penitentiary, and the jailer in all cases shall make affidavit that the price charged is not in excess of the amount paid for such clothing.

Grand juries shall only be held in the county court twice a year, unless specially ordered by the court. One dollar shall be allowed for service upon the grand jury. The allowance for the feeding of the jury n all criminal cases shall be at the rate of

\$1 per entire day-or, in other words, a dollar shall not be allowed for one meal. A great saving will be made in the transportation of convicts, the railroad companies having agreed to take convicts and their guards at the rate of two cents per mile. There are many other changes made-all looking to a more efficient and economical criminal procedure.

The committee will report a printed bill in a few days. They have been unremitting in their labors, having met every day largely the income of the city sergeantcy,

PUBLIC-SCHOOL EXAMINATIONS .- The intermediate examinations in the public schools of the city, which have been in progress since Monday last, will be completed to-day. The pupils have generally stood well, and a gratifying progress seems to have been made in all branches. The following is a statement of the percentage of attendance for the week ending February

The large percentage of attendance of the children is very creditable. It speaks well for the interest manifested by them in the work of the examination. In thirty chools 100 per cent. of attendance for the week was obtained. Had it not been for the stormy weather Friday the attendance in all the groups would have reached near 100 per cent. The results of the examination have not yet been ascertained.

Dozens more are coming forward. The old saying that the early bird catches the worm is not disre-
